

*The BeoCenter 2300 is a fully integrated music system with radio, compact disc player and speakers all in one unit. It can be placed anywhere you want music – on a wall in the specially designed Bracket 2500, or on a table or sideboard.*

*Whenever you reach out to operate the BeoCenter 2300, the glass doors slide open as if by magic, inviting you in to the music.*

*All the operating buttons are located in one place. They are conveniently grouped according to type of function, so you can easily find your way around the keypad while operating the system.*

and available FREE at [www.lconic-AV.co.uk](http://www.lconic-AV.co.uk)**

**User's guide**

*This user's guide describes the operation of the BeoCenter 2300 in a set up and with active, Bang & Olufsen Power Link speakers.*

*Complete setting-up instructions for the centre unit and for the loudspeakers are found in the setting-up guides enclosed with the products.*

*If you move the BeoCenter 2300 to another place, you must switch it off at the mains before unplugging the mains lead.*

  - 24 *Remote control*

Your BeoCenter 2300 is versatile,  
mobile... and responsive!

You can move the whole system,  
including loudspeakers, around at will  
and place it wherever you like – on the  
wall in a specially designed bracket or  
on a table.

But no matter where you place your  
BeoCenter 2300, it will always respond  
to a wave of your hand.

As soon as you reach out to touch the  
glass doors, the BeoCenter opens  
automatically, revealing the music  
system concealed behind the screen.
