Placement

The compact disc player must be placed horizontally on a stable surface.

Make sure to put it in a place where ventilation cannot be impeded.

Leave a space of approximately 15 cm in the front of the compact disc player so that the disc compartment can open freely.

Connections

Once connected to the mains, the compact disc player will be in the stand-by mode and ready for operation.

The stand-by mode is indicated by a tiny red light on the front panel.

Beomaster 7000

and available FREE at www.Iconic-AV.co.uk

The digital output on the rear panel is intended for possible future digital equipment.

Removing the disc tray protection

Press the left-hand side of the metal front panel to open the disc tray, then remove the cardboard. Keep the cardboard in a safe place for later use.

If you ever have to transport the compact disc player, we strongly recommend that you reinsert both the cardboard protecting the disc tray and the two transport screws.

Compact disc player pausing

Scanning in progress

Using the controls

Press the left-hand side of the metal front panel to open the disc tray

Press again to close the disc tray

Loading a compact disc
Place the CD with the text side facing up so you can read it

Unloading a compact disc!

You can also close the compartment and start playing directly by gently pressing the front edge of the disc tray or the right-hand side of the metal front panel

If left open for more than 3 minutes, the disc compartment will close automatically

Playing a compact disc

Gently tap the right-hand side of the metal front panel

The compact disc player will register all the tracks on the compact disc and playing will begin almost immediately

Press a second, third etc. time to step to the next tracks, or to step through all the tracks back to the first track

Switching off

Keep the right-hand side of the front panel depressed for 2 seconds. Playing will stop and the compact disc player will return to the stand-by mode

At the end of a compact disc, playing will stop automatically and the compact disc player will then revert to the stand-by mode
