CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: To reduce the risk of electric shock, do not remove cover (or back).

No user-serviceable parts inside. Refer servicing to qualified service personnel.

WARNING: To prevent fire or electric shock, do not expose this appliance to rain or moisture.

This symbol indicates that a dangerous voltage constituting a risk of electric shock is present within this unit.

This symbol indicates that there are important operating and maintenance instructions in the literature accompanying this unit.

For the US-market only!

NOTE: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

For the Canadian market only!

CAUTION: To prevent electric shock do not use the polarized plug, attached to this apparatus, with an extension cord, receptacle or other outlet unless the blades can be fully inserted to prevent blade exposure.

Once you have assembled the speakers they are ready for connection to the audio system (or video system), and to the mains (see assembly instructions on the enclosed instruction sheet).

Make sure that you have mounted the proper feet on the base: rounded feet for wooden/parquet floors, or other types of bare floors; spikes for carpeted floors.

Placement

The BeoLab 8000 occupies very little space on the floor. In fact, it can be placed wherever it is most convenient for your room layout, and for your preferred listening position.

The BeoLab 8000 is designed for use in dry environments only!

*The appropriate type of feet
should be mounted on the base*

Connect the BeoLab 8000 and the audio system (or video system) using the enclosed 8-pin Power Link cable. Plug one end into the Power Link socket on the speaker, and the other end into either of the two Power Link sockets on the audio/video system.

Once you have connected the speakers, the switch underneath the Power Link socket on the BeoLab 8000 must be set to L or R: L for the left-hand speaker, R for the right-hand speaker.

Finally, connect the speakers to the mains using the enclosed mains lead. To secure the mains cord from being disconnected, we advise you to tie the mains cord to the black lid with the enclosed cable-tie (A).

The phono socket underneath the switch must be used instead of the Power Link socket if the BeoLab 8000 is to be connected to a non-Bang & Olufsen product. In this case, the switch must be set to LINE.

Note: The type number of the BeoLab 8000 speaker appears on the label which is placed on the inside of the socket panel cover.

The rubber tube packed with the speaker is a cable cover specially designed for the BeoLab 8000. Use the enclosed tool to "zip up" the cable cover when you have placed both the mains cord and the Power Link cable inside it.

You may connect more than one pair (as many as ten pairs, in fact) of BeoLab 8000 speakers to your audio or video system.

The special adaptor, part no. 6270706, can be used to connect additional pairs of BeoLab 8000 speakers to your Bang & Olufsen system. The adaptor is available as an optional accessory from your Bang & Olufsen dealer.
