

The Beosystem 2500 is a fully integrated music system with radio, compact disc player, tape recorder and speakers all in one unit. It can be placed anywhere you want music – on a wall in the specially designed Bracket 2500, or on a table or sideboard.

Whenever you reach out to operate the Beosystem 2500, the glass doors slide open as if by magic, inviting you in to the music.

All the operating buttons are located in one place. They are conveniently grouped according to type of function, so you can easily find your way around the keypad while operating the system.

User's guide

Note: Complete setting-up instructions for the centre unit and for the loudspeakers of the Beosystem 2500 are found in the setting-up guide also enclosed with the Beosystem 2500.

If you move the Beosystem 2500 to another place, you must switch it off at the mains before unplugging the mains lead.

Your Beosystem 2500 is versatile,
mobile... and responsive!

You can move the whole system,
including loudspeakers, around at will
and place it wherever you like – on the
wall in a specially designed bracket or
on a table.

But no matter where you place your
Beosystem 2500, it will always respond
to a wave of your hand.

As soon as you reach out to touch the
glass doors, the Beosystem opens
automatically, revealing the music
system concealed behind the screen.
