

*Your Beosystem 6500 is easy and very convenient to use – you can in fact operate the whole system without leaving your chair.*

*The Master Control Panel 6500 is the key to the system, and it communicates with the brain of the system, the Beomaster 6500. Together they form the basis of the system.*

*The Beomaster 6500 is an FM/AM receiver. It is data-linked to the other system components: the Beocord 6500 tape recorder; the Beogram CD 6500 compact disc player; and the Beogram 6500 record player.*

**User's guide**

Beocord 6500

Beogram CD 6500

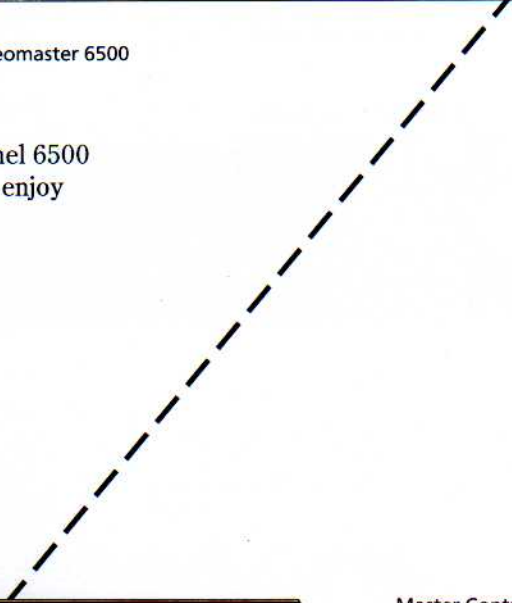

Beogram 6500

Beomaster 6500

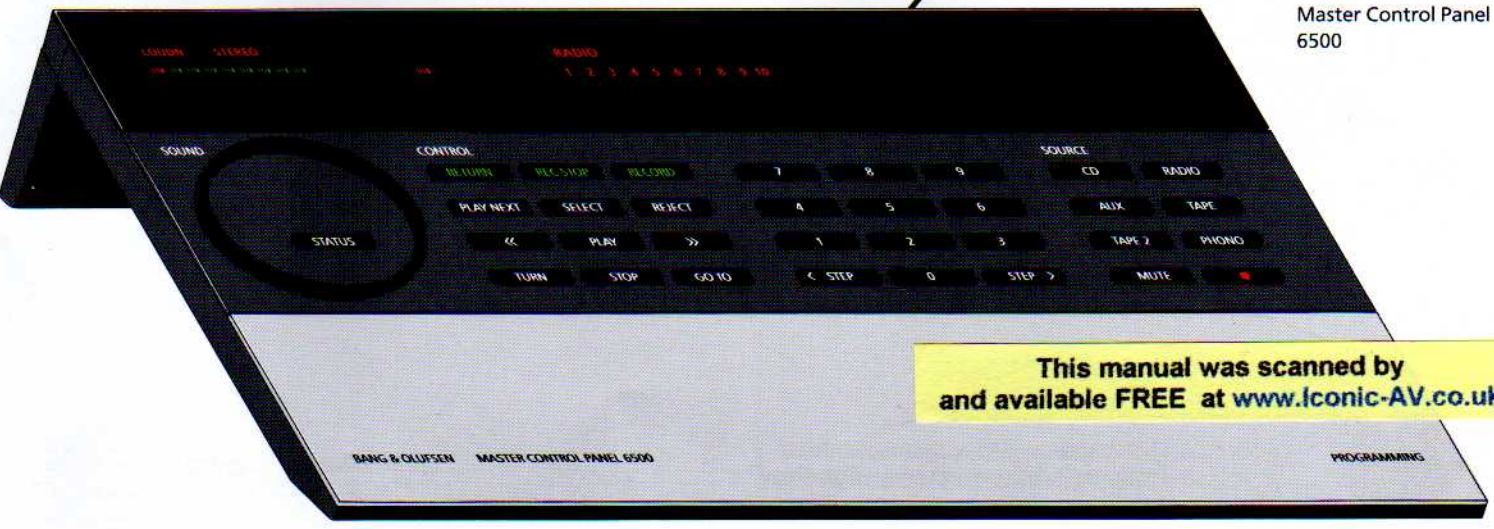

Your Beosystem 6500 gives you the sound and music you want at the touch of a single button.

Just give the Master Control Panel 6500 a command; then lean back and enjoy the music.

And because the system is linked together, you can switch the sound instantaneously from one source to another – at the touch of a single button.

Master Control Panel 6500

BANG & OLUFSEN MASTER CONTROL PANEL 6500

PROGRAMMING

*Note: Complete setting up and maintenance instructions for each unit are found with the unit itself. Basic operations can also be carried out directly on the unit, and close operating instructions are included in the setting up guide.*

*Be sure to keep the setting up guides. You will need them for cleaning and maintenance instructions, and for when you move or rearrange your Beosystem 6500 in the future.*
